## AACN Clinical Issues Advanced Practice in Acute and Critical Care

**Ventilatory Support, 471-569**

**Restraint Use, 571-635**

**A**

Acute lung injury

- assessment, 507
- experimental therapies for failing lung, 507
- ventilatory support, permissive hypercapnia strategy, 473

Age/aging, restraint-free hospital care, 572

Anesthetics, inhaled, in severe childhood asthma, 519

Anticholinergic agents, for severe childhood asthma, 519

ARDS. *See* Respiratory distress syndrome, acute/adult

Aspiration, oral feeding aspiration in tracheostomy patient, 560

Asthma

- severe, in pediatric population, 519
- status asthmaticus, ventilatory support, permissive hypercapnia strategy in, 473

**B**

Barotrauma, mechanical ventilation and, 482

- permissive hypercapnia strategy for, 473

Beta-agonists, for severe childhood asthma, 519

**C**

Chemical restraints. *See also* Restraint use/reduction

- definition, 611

Chronic obstructive pulmonary disease, lung volume reduction surgery for, 543

Corticosteroid(s), for severe childhood asthma, 519

Critical pathway, ventilator weaning protocols and techniques, 550

**D**

Decision analysis, establishing nonrestraint approaches in acute care, 592

**E**

Elderly. *See* Geriatric population

Emphysema, lung volume reduction surgery for, 543

Ethical issues, restraint use, 585

Extracorporeal membrane oxygenation, in pediatric ARDS, 529

**F**

Food and Drug Administration (FDA), restraints, 579

**G**

Geriatric population

- restraint-free hospital care, 572
- restraint use in, 611

**H**

Heliox, for severe childhood asthma, 519

Hospital, restraint-free hospital care for acutely ill, 572

Hypercapnia. *See* Permissive hypercapnia

Hypotension, mechanical ventilation and, permissive hypercapnia strategy for, 473

Hypoxemia, in ARDS, 482

*Index to*

## AACN Clinical Issues Advanced Practice in Acute and Critical Care

**Ventilatory Support, 471-569**

**Restraint Use, 571-635**

**A**

Acute lung injury

- assessment, 507
- experimental therapies for failing lung, 507
- ventilatory support, permissive hypercapnia strategy, 473

Age/aging, restraint-free hospital care, 572

Anesthetics, inhaled, in severe childhood asthma, 519

Anticholinergic agents, for severe childhood asthma, 519

ARDS. *See* Respiratory distress syndrome, acute/adult

Aspiration, oral feeding aspiration in tracheostomy patient, 560

Asthma

- severe, in pediatric population, 519
- status asthmaticus, ventilatory support, permissive hypercapnia strategy in, 473

**B**

Barotrauma, mechanical ventilation and, 482

- permissive hypercapnia strategy for, 473

Beta-agonists, for severe childhood asthma, 519

**C**

Chemical restraints. *See also* Restraint use/reduction

- definition, 611

Chronic obstructive pulmonary disease, lung volume reduction surgery for, 543

Corticosteroid(s), for severe childhood asthma, 519

Critical pathway, ventilator weaning protocols and techniques, 550

**D**

Decision analysis, establishing nonrestraint approaches in acute care, 592

**E**

Elderly. *See* Geriatric population

Emphysema, lung volume reduction surgery for, 543

Ethical issues, restraint use, 585

Extracorporeal membrane oxygenation, in pediatric ARDS, 529

**F**

Food and Drug Administration (FDA), restraints, 579

**G**

Geriatric population

- restraint-free hospital care, 572
- restraint use in, 611

**H**

Heliox, for severe childhood asthma, 519

Hospital, restraint-free hospital care for acutely ill, 572

Hypercapnia. *See* Permissive hypercapnia

Hypotension, mechanical ventilation and, permissive hypercapnia strategy for, 473

Hypoxemia, in ARDS, 482

**I**

- Immobilization, definition, 603
- Immune system mediators, inhibitors of, experimental therapies for failing lung, 507
- Informed consent, restraint use, 585
- Intrapulmonary shunt
  - in acute lung injury, 507
  - in ARDS, 482
- Ipratropium, for severe childhood asthma, 519

**J**

- Joint Commission on Accreditation of Healthcare Organizations (JCAHO), Standards for Restraint and Seclusion, 623

**L**

- Legal issues, restraint use, 579
  - informed consent, 585
  - in pediatric population, 572
- Liability, restraint use, 579
- Liquid ventilation, in pediatric ARDS, 529
- Lung. *See* Acute lung injury; Chronic obstructive pulmonary disease
- Lung volume reduction surgery, for emphysema, 543

**M**

- Magnesium sulfate, for severe childhood asthma, 519
- Malpractice liability issues, restraint use, 579
- Mechanical ventilation
  - complications, permissive hypercapnia strategy for, 473
  - high-frequency oscillatory ventilation, in pediatric ARDS, 529
  - high-level PEEP, in surgical patient with ARDS, 482
  - permissive hypercapnia strategy, 473
  - in pediatric ARDS, 529
  - pressure-controlled inverse ratio ventilation, 495
  - in pediatric ARDS, 529
  - pressure-supported ventilation, 495
  - for severe childhood asthma, 519
  - tracheostomy for, oral feeding aspiration in, 560
  - ventilator weaning protocols and techniques, 550
  - volume-guaranteed pressure options, 495
  - volume vs. pressure ventilation, 495
- Medical immobilization, definition, 603
- Medical protective device, definition, 603
- Methylprednisolone, for severe childhood asthma, 519

**N**

- Nitric oxide
  - experimental therapies for failing lung, 507

**in pediatric ARDS, 529****O**

- Outcome management, ventilator weaning protocols and techniques, 550
- Oxygen toxicity, mechanical ventilation and, 482
  - permissive hypercapnia strategy for, 473

**P**

- Paternalism, restraint use, 585
- Pediatric population
  - adult (acute) respiratory distress syndrome, conventional and innovative therapies, 529
  - severe asthma, acute management, 519
  - use of and alternatives to restraints, 603
- PEEP (positive end expiratory pressure). *See* Mechanical ventilation, high-level PEEP
- Permissive hypercapnia
  - in pediatric ARDS, 529
  - prevention of complications of mechanical ventilation, 473
- Physical restraints. *See* Restraint use/reduction
- Pneumonia, aspiration, oral feeding aspiration in tracheostomy patient, 560
- Prone positioning, experimental therapies for failing lung, 507

**R**

- Respiratory distress syndrome, acute/adult (ARDS)
  - in children, conventional and innovative therapies, 529
  - in surgical patient, high-level PEEP management, 482
  - ventilatory support, permissive hypercapnia strategy in, 473
- Restraint use/reduction
  - definition of restraint, 603
  - effects of physical restraints, 592
  - establishing nonrestraint approaches in acute care, 592
  - ethical issues, 585
  - in geriatric population, 611
- Joint Commission on Accreditation of Healthcare Organizations (JCAHO), Standards for Restraint and Seclusion, 623
- legal issues, 579
- in pediatric population, 572
- restraint-free care in hospital setting, 592

**S**

- Sedatives, in severe childhood asthma, 519
- Status asthmaticus. *See* Asthma
- Surfactant therapy, in pediatric ARDS, 529
- Swallowing, physiology, tracheostomy and, 560

**T**

Tracheostomy, for mechanical ventilation, oral feeding aspiration in, 560

in failing lung, experimental therapies, 507  
in pediatric ARDS, 529

Videofluoroscopy, oral feeding aspiration in tracheostomy patient, 560

**V**

Ventilation, assisted. *See* Mechanical ventilation  
Ventilation/perfusion mismatch

**W**

Woods-Downs Clinical Asthma Evaluation Score, 519

**STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION** (Act of August 12, 1970: Section 3685, Title 39 United States Code) Date of Filing—October 1, 1996. Title of Publication—AACN Clinical Issues: Advanced Practice in Acute and Critical Care; Frequency of Issue—Quarterly; Annual Subscription Price—\$62.00; Location of Known Office of Publication—12107 Insurance Way, Suite 114, Hagerstown, MD 21740; Location of the Headquarters or General Business Offices of the Publisher—Lippincott-Raven Publishers, 227 East Washington Square, Philadelphia, PA 19106; Publisher—American Association of Critical-Care Nurses, 101 Columbia, Aliso Viejo CA 92656; Editor—Mary Lou Sole, RN, PhD, CCRN, University of Central Florida, P.O. Box 162210, Orlando, FL 32816-2210; Managing Editor—Karyn Crislip, Lippincott-Raven Publishers, 227 E. Washington Square, Philadelphia, PA 19106; Owner—American Association of Critical-Care Nurses, 101 Columbia, Aliso Viejo, CA 92656; Known Bondholders, Mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities—None. A. Total no. copies printed (*net press run*), average 2,350, actual 2,300; B. Paid circulation: 1. Sales through dealers and carriers, street vendors and counter sales, average none, actual none; 2. Mail subscriptions, average 1,793, actual 1,722; C. Total paid circulation, average 1,793, actual 1,722; D. Free distribution by mail, carrier or other means. Samples, complimentary, and other free copies, average 104, actual 106. E. Free distribution outside the mail, average none, actual none. F. Total free distribution, average 104, actual 106. G. Total distribution, average 1,897, actual 1,828. H. Copies not distributed 1. Office use, leftovers, spoiled, average 453, actual 482. 2. Return from news agents, average none, actual none. I. Total, average 2,350, actual 2,300. Percent paid and/or requested circulation, average 95, actual 94. I certify that the statements made by me above are correct and complete. Beverly V. Dietrich, *Circulation Director*.
